

## Baseband Video, Audio & Data Fiber Optics Modular Chassis

The Meret CRM-2000 chassis offers unsurpassed ease of installation and use in a commercial, industrial or military market. The aesthetic and ergonomic design of the CRM-2000 allows it to blend into any environment. An internal fan aids in heat dissipation, enabling the CRM-2000 to be mounted in dense rack assemblies.

The CRM-2000 chassis is available with a single linear power supply module that is field upgradable. The CRM-2000 presents user flexibility in determining current and future power supply requirements. The CRM-2000 chassis can hold G-cards from the VGL3000, AL3300, LL700, and LL500 series products.

### Specifications

#### CRM-2000

##### Electrical/Mechanical

Dimensions	19"W x 7"H x 11"D
G-Cards Supported	6 modules
Power	100/120/220/230/240 VAC $\pm$ 10%, 47-63 Hz, 160 W maximum
Temperature	0 to +40°C
Fuse	2 Amp (100/120 VAC) 1 Amp (220/230/240 VAC)
Overvoltage Protection	Factory set at 115% of nominal input
Finish	Painted, two-tone beige/grey

## Model CRM-2000

### APPLICATIONS

- Multi-channel/multi-fiber systems
- Rackmounted equipment facilities
- Desktop equipment

### FEATURES

- Rack mountable chassis
- Six slot capability
- Desktop packages
- 110 VAC or 230 VAC

### BENEFITS

- Less space, less power
- Field upgradable power supply
- All slots interchangeable
